2003

2002

Welcome To

Char-Lan DHS

Principal's Message

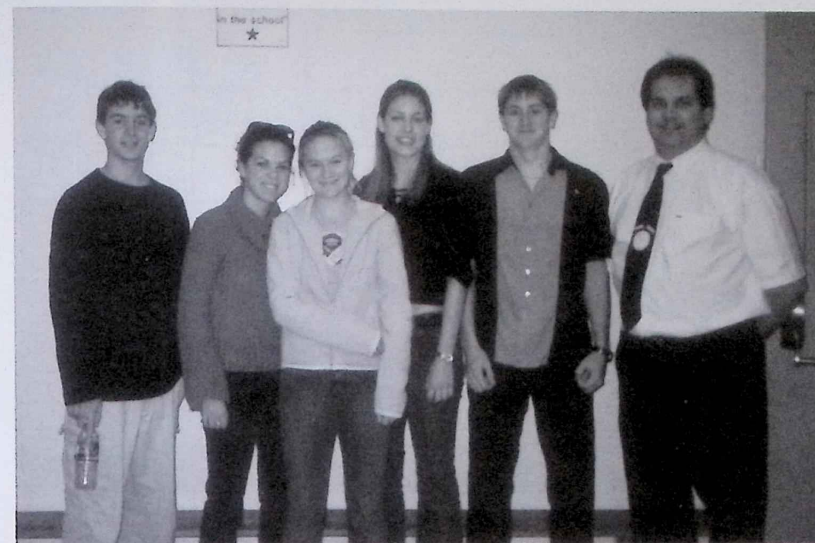

Charles Dickens wrote, "one always begins to forget a place as soon as it's left behind." We are fortunate to have this edition of the "Crusader Yearbook" to preserve our memories of the 2002-2003 school year. As I reflect on the school year, I am reminded of the classes, courses, clubs, teams, and special events that comprised each school day. The pages of this yearbook accurately reflect the good times, the funny times and even the boring times! I would like to thank the members of the yearbook club for their efforts in producing this keepsake. Your dedication and hard work is sincerely appreciated.

In closing, I would like to extend my sincere best wishes to our graduates. May the days you spent at Char-Lan allow you to be confident and competent in whatever you pursue.

Sincerely,

Frank Hummell
Principal

President's Message

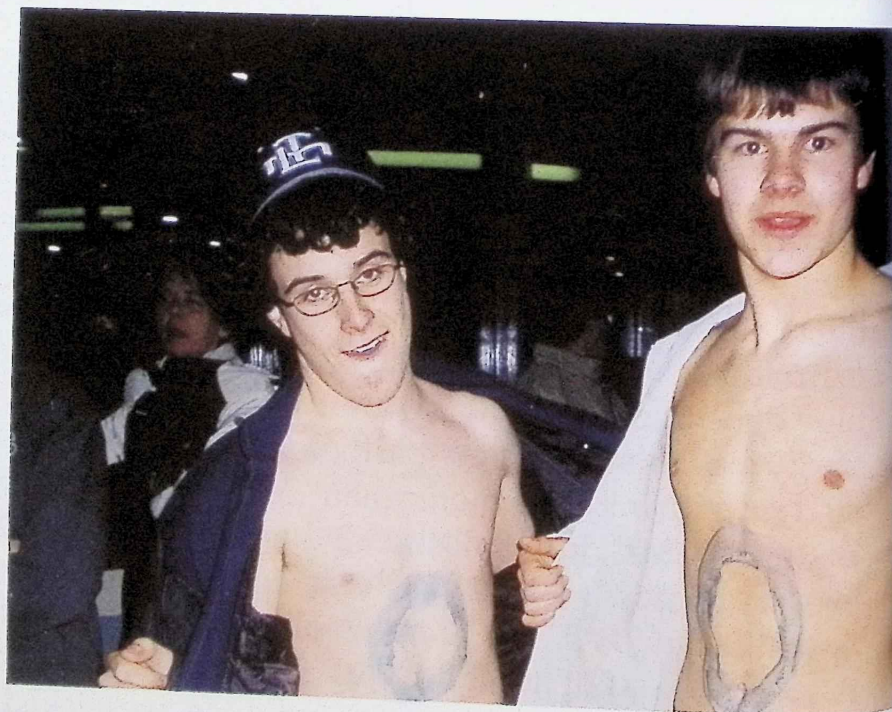

Finally, it has come down to this. I feel saddened as I write this because I know that it will be the last time I get to write something in a high school yearbook. I know that these are the best times of our lives, and I am sad to see them go. But as a good friend once said, "We're here for a good time, not a long time." So I must say that I am glad that I had the chance to be part of the legacy of Char-Lan. I can remember the glorious days of the "carnival extraordinaire," and the overall sense of pride that came from our boys in blue defeating that "other" country school at soccer. As good help is hard to find, I must also thank my partners in crime for their help this year. First of all, I must thank the "bionic man" Mr. Trasuk, "the flying Frenchman" Mr. Di Stefano, Mr. Hummell and all the staff for their help this year. They make everything possible and were very positive in all events. Without their co-operation and PATIENCE we wouldn't have gotten anything done this year. Also, to the rest of the squad, Juli, Nicky, Vicky, and Ryan, you guys were great this year. Everything said and done, we clicked as a team and made this year the best it could be.

Thank you and have a good one,
Brock Munro
Student Council President

Editor's Message

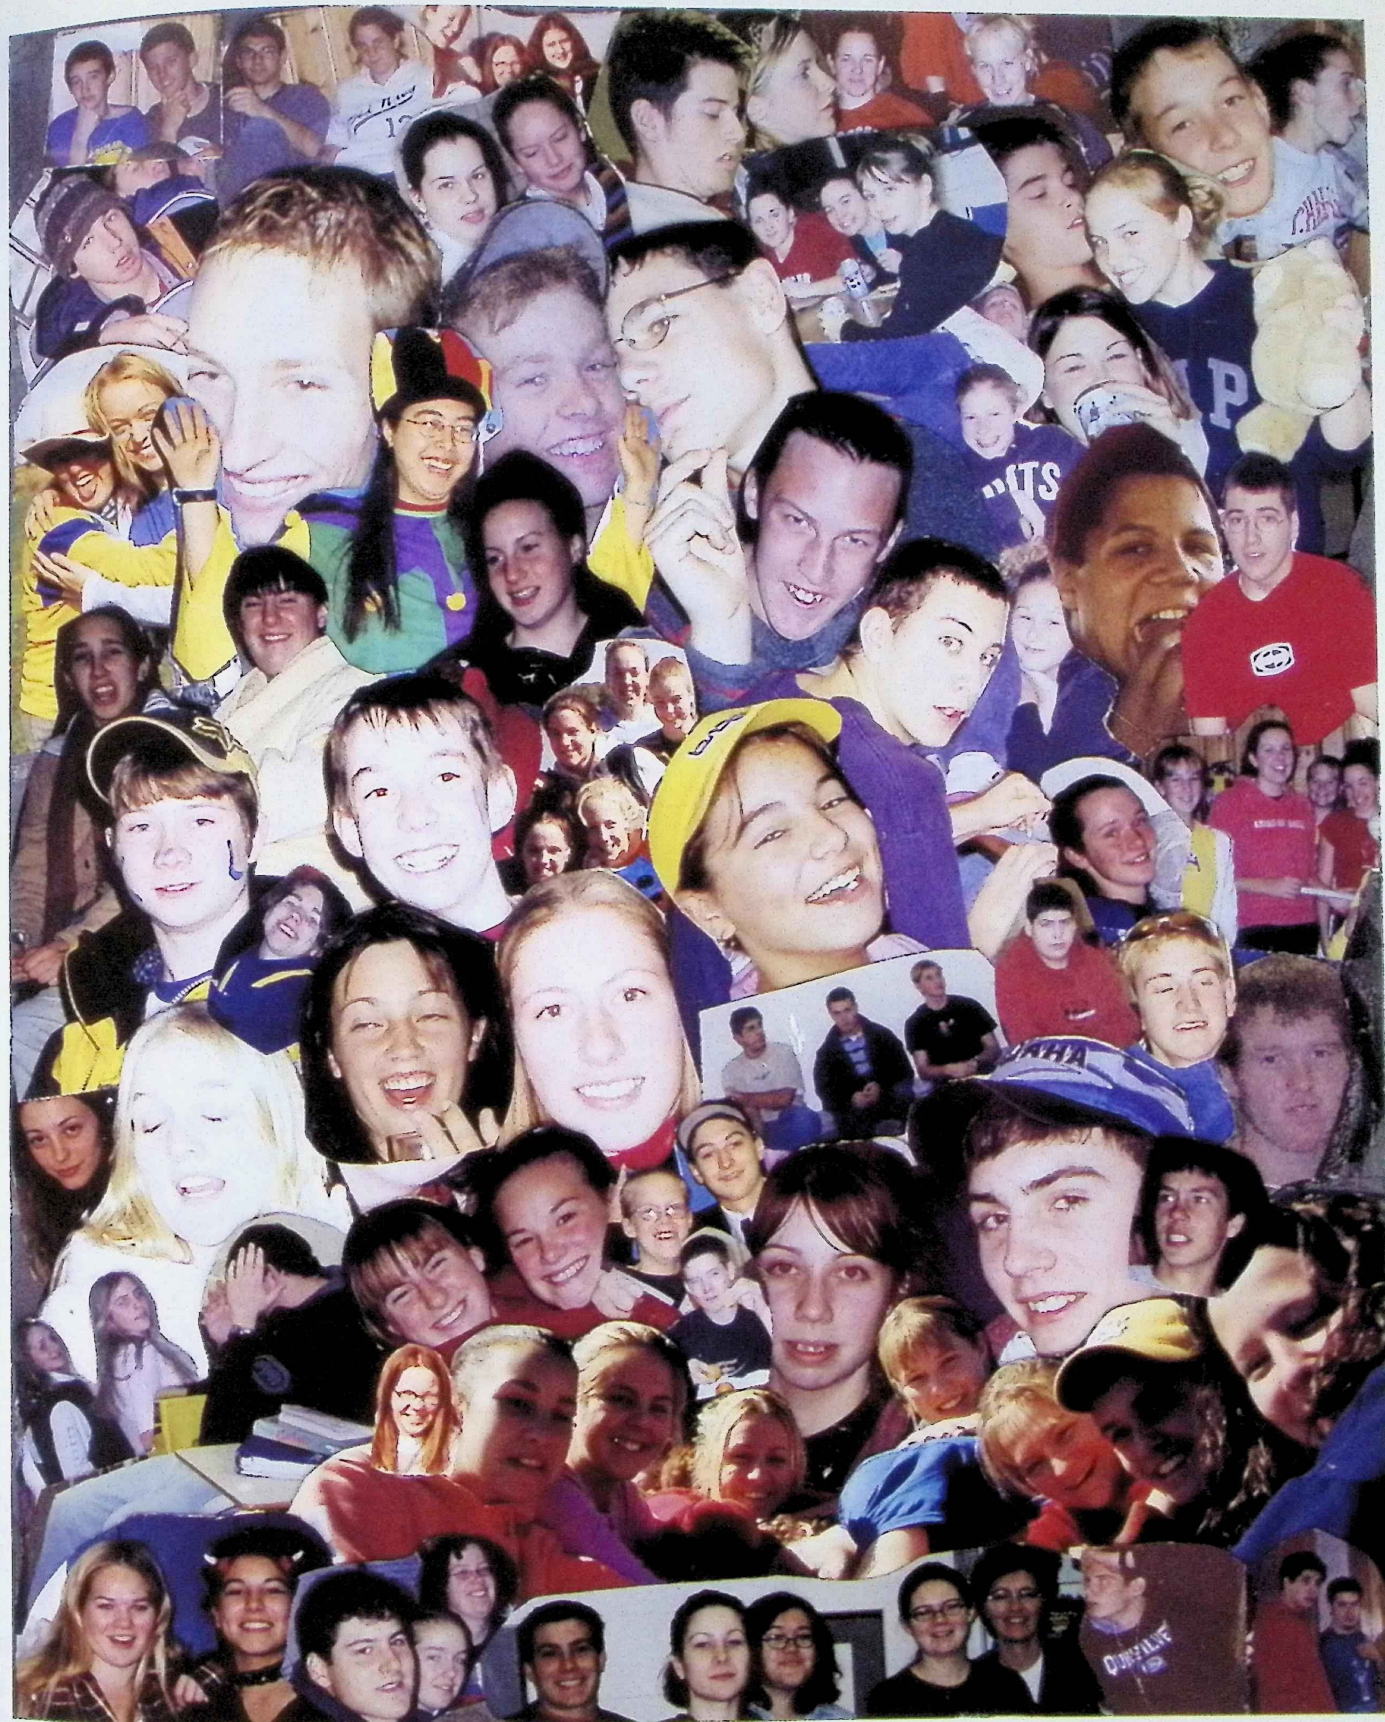

Taking on the role of yearbook editor is possibly one of the scariest things I've ever done. At first I had no clue as to what I was doing, so this job has been an incredible learning experience for me. I'm extremely grateful for all the patience and support shown to me, and I'd like to take this opportunity to thank everyone for their help throughout the year, particularly Mrs. David, Mrs. Vanderburg, Sharon, Cathy, Christine, the inexhaustible yearbook staff, and my fearless leader, Corey Kalsi. Finally, thank you Char-Lan. Without your memories and contributions, this book would not be possible. To paraphrase the Beatles, what you get out of life is equal to what you put into it. I hope you look back on this year with pride.

Keep Smiling!

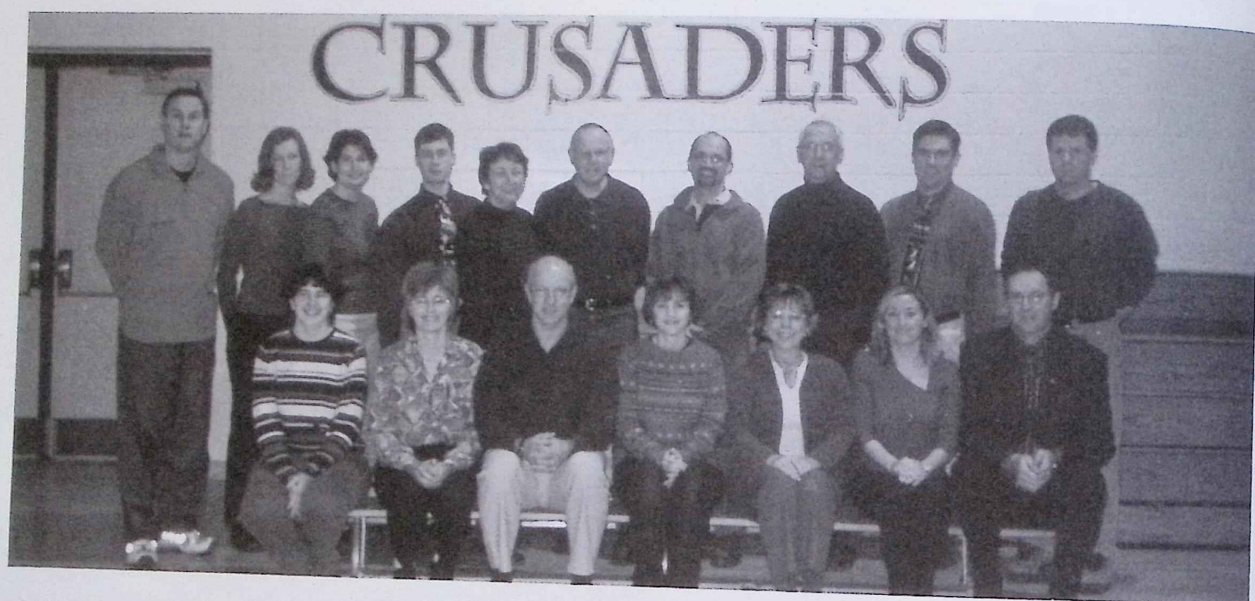

Megan McIntosh
Yearbook Editor

CrusaderQuest

September 25-27, 2002

This year Char-Lan held its first annual leadership camp. For three days, several teachers and approximately 100 students "camped out" at La Petit Rouge, Calumet, Quebec. Those who attended had a lot of fun learning how to become better leaders, making new friends. There was even time to play a little Ultimate Bocce. By all accounts, CrusaderQuest was a resounding success!

My Funny Little Object

I crouched on the ground with the sun beating warmly on my back. I levelled my camera and began to focus. Slowly, the small curious foal cautiously walked towards me. His ears were well shaped and delicate looking, coming to a point at the tips. They were pricked forward and his eyes were gleaming. The sun was glinting off his smooth copper coat. His muscles moved effortlessly with the promise of unknown strength. The grass was nicely cropped short and lush green. Several dandelions were dispersed around my feet. The warm summer day was nearing full power and it was not yet noon. Large, puffy, snow white clouds glided through the sky, changing shape and form smoothly. My attention turned back to the foal in time to see him quicken his light, springy step. His long spider-like legs moved with ease over the ground. He coily turned his head and gazed at me for several moments. The little foal was deciding if I was safe to approach, with this funny object in my hand. He gave a little toss of his head and his short spiky mane danced around his neck. His tail was twitching back and forth as he slowly angled toward me. He decided to give a little bounce and came towards me. Slowly and cautiously he made his way towards me and my funny object. He stopped short a couple of feet from me. I had my camera poised and my finger ready. The curious foal stretched out his neck towards my camera. His ears were forward and the expression was captured on my funny little object forever.

First Impressions

Leaving elementary school behind and coming to Char-Lan was a great experience. Here at Char-Lan, everyone is helpful and willing to lend a hand. The kindness of this school makes the transition that much easier. When many people think of high school, they think of bullies, gangs, and drugs; not at Char-Lan, though. When people at Char-Lan describe their school, they think of friends, the sports teams, the clubs, and most of all, the great times they have had at this great little school. Char-Lan is the most welcoming high school you will ever find, and Char-Lan is by far better than the rest!

TO...

To be faithful is easy
To be romantic is feeling
To be unbelievably attractive is unknowing
To be completely sexy without knowing it is attractive
To be one of a kind is unique
To be a soul mate is fate
To understand your partner, inside and out is desirable
To dream of them is heart fluttering
To think of them constantly is normal
To be an outrageous babe is not your fault
To connect is incredible
To gaze into their warm eyes is a privilege
To hold your partner is adorable
To gift each other with your presence is unbelievable
To whisper in their ear is fascinating
To touch their warm skin is forgiving
To kiss them passionately is forever yours
To dance is a dream
To see inside them is self-explanatory
To love them is priceless

-Natasha Arsenault, Grade 11

10 HICK THINGS I HATE ABOUT YOU...

I hate your county way,
And the country things you say.
I hate the country way you talk,
And the country way you walk.
I hate how you always yell, "yee haw",
And how the birds on your farm go, "caw."
I hate the way you grow your hair,
And the cowboy hat you wear.
I hate your flannel shirts.
I hate your overalls.
I especially hate those cowboy boots,
And how you play the guitar instead of the flute.
I hate how you drive a pick-up truck,
Now why is your nickname, "Cluck"?
I hate the farm you live on,
And the chores you do each day.
I hate the horses that you ride,
And how you always lie.
I hate how you milk the cows,
And your bushy uni-brow.
I hate all the trees on your lawn,
And the waking up at dawn.
I hate the country way you laugh,
And the country way you cry.
I really hate that you're a cowboy.
But mostly I hate the fact that I can't hate you,
Not even close, not even a little bit, not even at all.

Outstanding Soccer

This was an incredible year for the Char-Lan soccer teams. Both junior teams placed second in S.D.&G and played in EOSSA. Both senior teams placed first in S.D.&G, and competed in the EOSSA tournament. The senior girls went on to place fourth in the province. Well done!

Valedictorian Address

By: Juliana Richard

Good evening, Mr. Hummell, teachers, fellow students, parents, family and friends.

As I look at the back of the cafeteria to those four doors, I remember how nervous I was when I first walked through them, in grade 9. Grade 9 was a year full of new friendships, new classes and new beginnings. I remember looking at the grade 12's and OAC's in the hallways thinking that they were so old and I could never truly picture myself in their position. School dances were the trend. The many video dances and two-stepping dances showed us that high school was going to be a

blast. High school would last forever...!

Grade 10 meant not being 'minor niners' anymore. Friendships were strengthened and classes got harder. We participated in the many carnival activities the school had organized and had a ball. I remember thinking that high school would last forever...

Grade 11 was the year that meant we weren't juniors anymore, but we weren't quite seniors, either. Classes were harder but friendships grew stronger every day. Remember all the dress up days we had? We dressed up as our favourite teacher or our "chosen" twin! And still I thought that high school would last forever...

Grade 12 was our first year as seniors, and wasn't life grand?! Classes were still getting harder and LS's showed us how hard it was to be in grade 12. But, again, our friendships grew stronger and stronger by the moment. This was the first year CrusaderQuest hit our school, and wasn't it a great experience? We cheered, we played games, a few did the polar bear dip, and our school spirit grew to be the strongest it had been in many years. High school would still last forever...

OAC year and the grade 12's graduating year was a year full of the excitement of applying to universities and colleges. We were considered an exhausting year because of the double cohort, but I think that we are one of the best combinations of graduating OAC's and grade 12's to ever hit Char-Lan. This year our sports teams were amazing. We won many soccer championships, senior boys beating GD and moving on to EOSSA, senior girls winning SD&G, winning EOSSA, and beating GD to get to OFFSA and even ending up 4th in all of Ontario! It was the first time in many years for Char-Lan to have done so well. There were also many other graduating events that filled our last year, like having our graduation breakfast and playing sports against the teachers to earn bragging rights. Friendships were constantly growing and I finally realized that high school does not last forever.

After tonight we're going to enter into the "adult world". Some of us may start working while others will continue their education as university or college students. But no matter what you do next year, you have to remember who helped you get there.

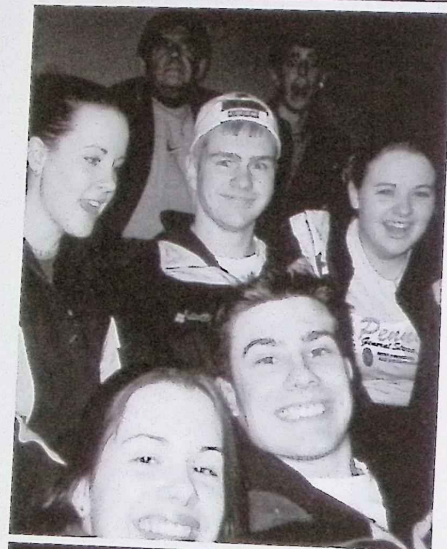

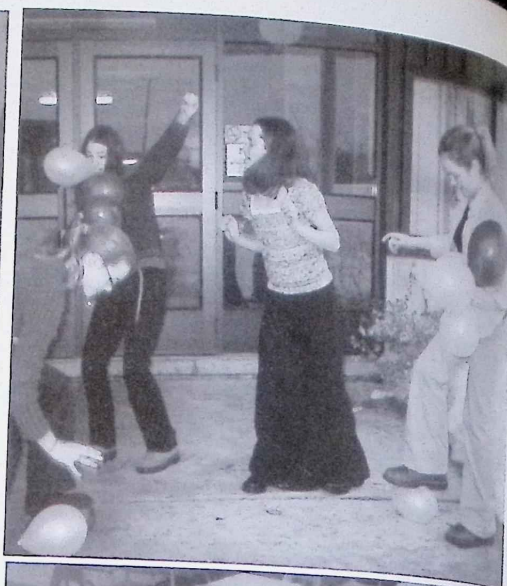

First, thank you to Mr. Hummell and the teaching staff at Char-Lan. They have molded us into strong, smart, independent individuals. Not only did they teach us how to "read, write, and do arithmetic"; they also taught us how to respond to daily problems and how to look into the future to become the best we can be. Mr. Hummell and teachers, you have become more than authority figures to us. You are also guides that helped us through our high school days, and your guidance will be with us through the many years we have ahead.

Secondly, thank you to our parents and family who have been around to see all of the funny, smart, ridiculous things we've done throughout our lifetime. You have held our hand when times were hard. You've stayed up late at night helping us to finish projects and to study. You've been there through good and bad times and loved us through it all. You have given us strength to live, and the power to become the well-rounded people we are today. If you could only know how much we love you and will miss you when we're gone in the next few years... You are our backbone.

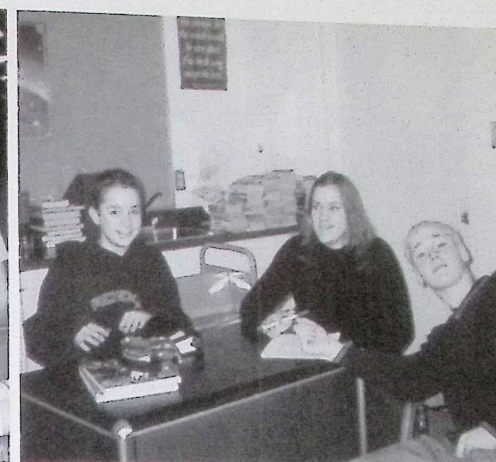

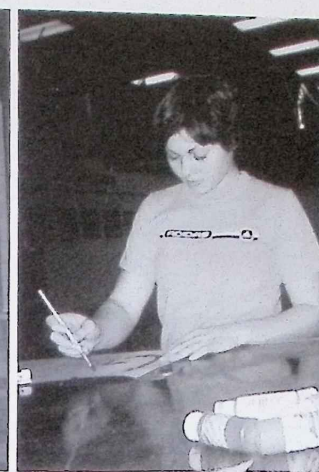

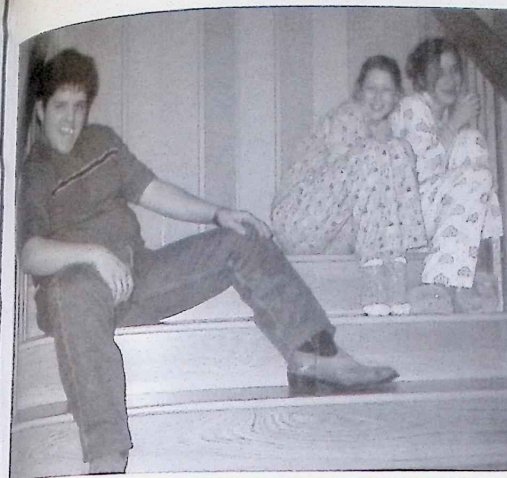

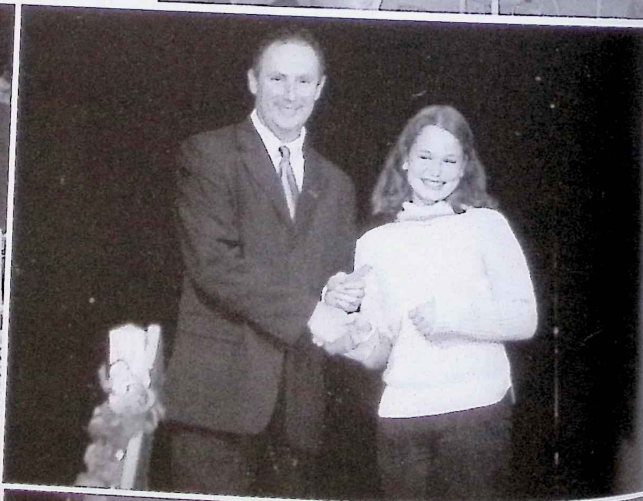

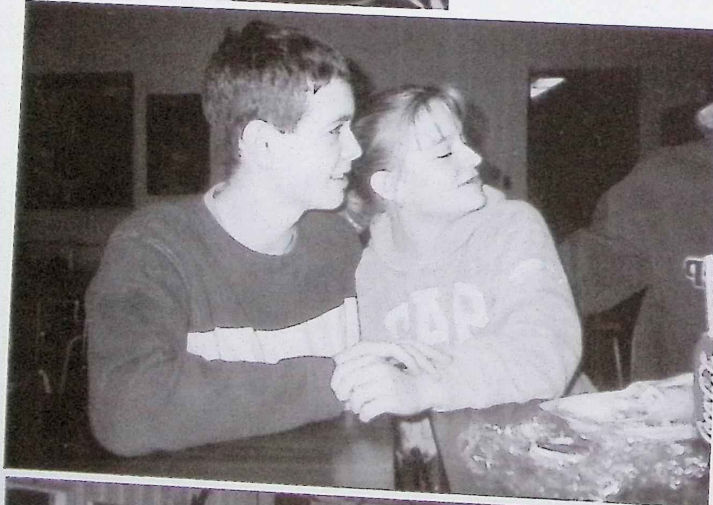

Lastly, to our peers and friends. If not for all of you, my high school years would not have been the same and I'm sure all of you feel the same. Friends kept the laughter in our hearts and the motivation to continue through our years of high school. We've had so many wonderful years together with so many amazing memories. Next year most of us will be far apart, but our friendships will never end.

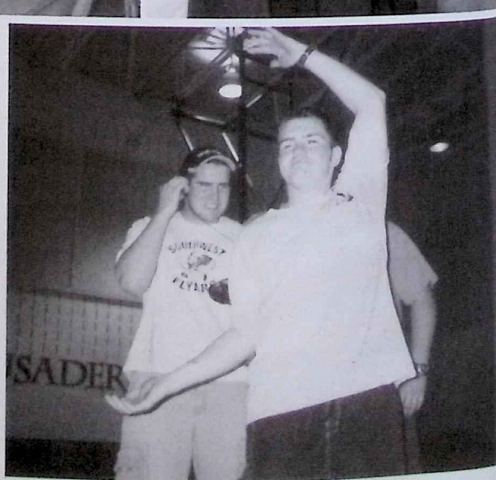

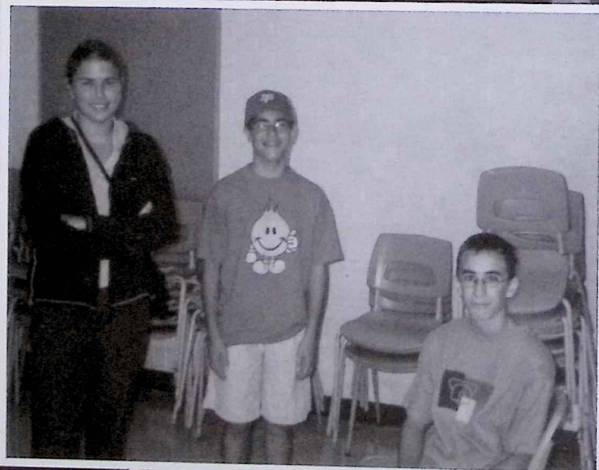

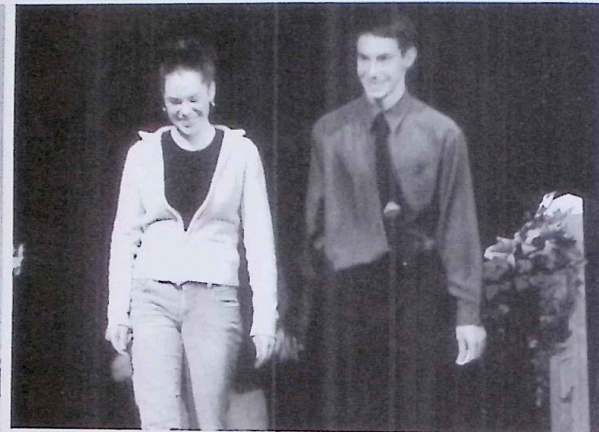

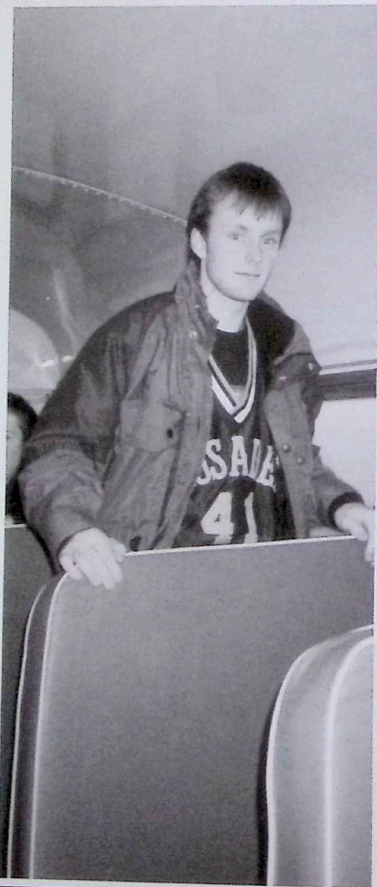

As our journey in life continues, I wish all the graduates the best of luck and the hope for great success in the future. Always remember your roots here at Char-Lan, and if I can ask you to do one thing throughout your lifetime, it is to follow your dreams, because you never know where or how far they'll take you.

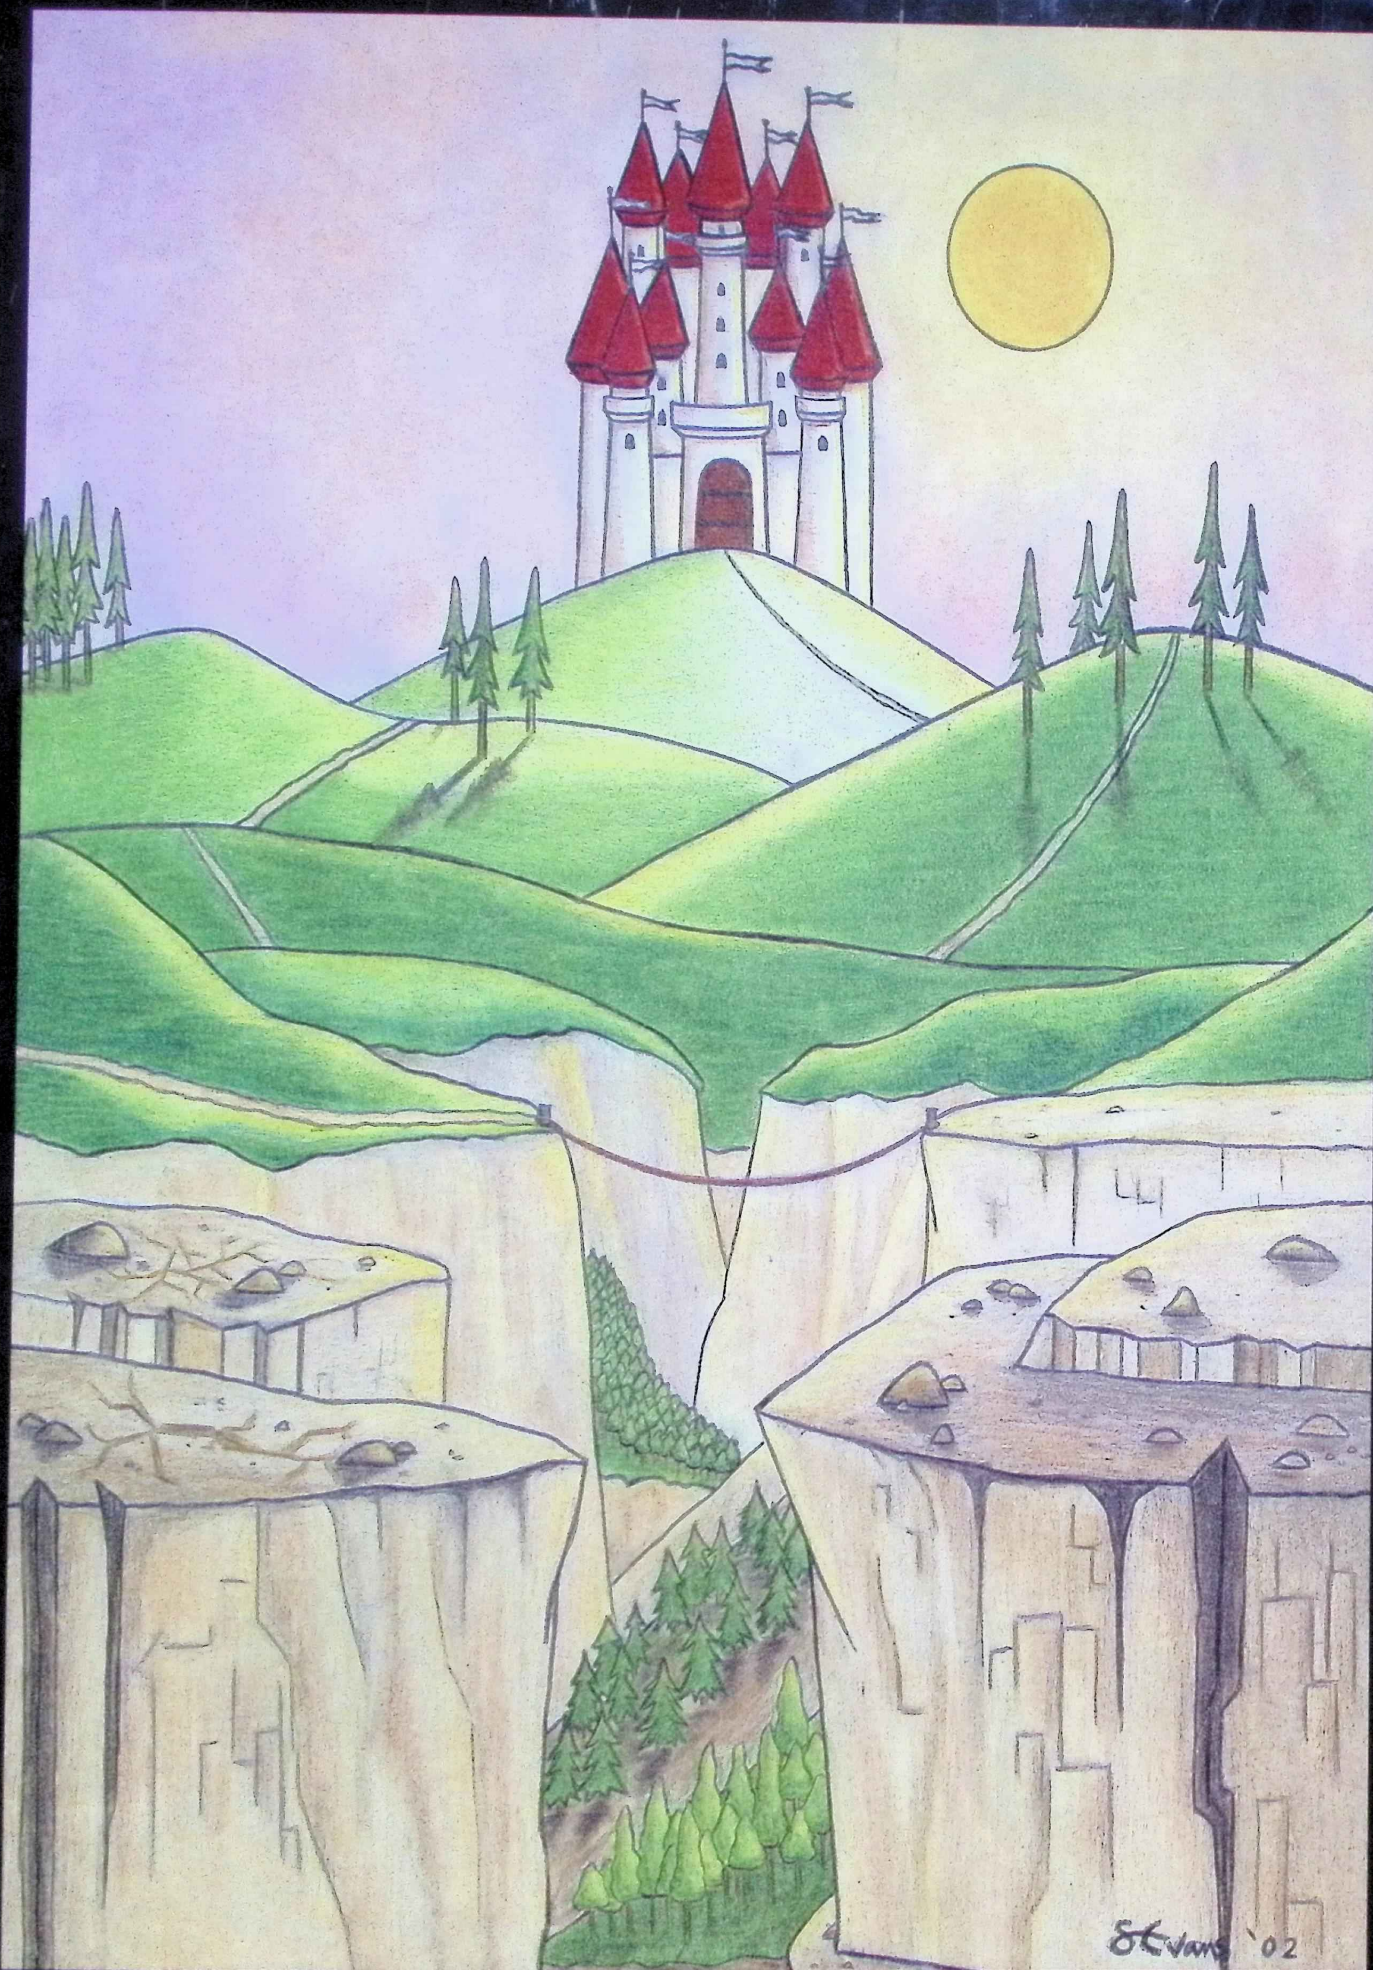

Congratulations to the graduates of the Class of 2003!
