The Morning of the Pancake Breakfast

Sports

On December 19, 2012, Char-Lan DHS welcomed back four former graduates of who are representing Williamstown on a very large stage.

For the past two years, Tyson and Tylor Spink have played hockey as part of the Canada East team at the World Junior A Challenge. Christina Julien earned a spot on the Canadian National Woman's Soccer team as a striker. Christina and her teammates won gold medals at the recent Pan Am Games in Guadalajara, Mexico. Michael Robertson also participated in the Pan Am Games as part of the Canadian National Track and Field Team.

All of the athletes talked about the dedication, willingness to work hard and the sacrifices they have made on the way to reaching their goal. They shared pictures and stories with the student body and made us feel as if we were part of the experience. Tyson and Tylor spoke about how a group of hockey players became a unit in two short weeks through team building exercises. Christina talked about how amazing it was to represent Canada at the FIFA World Cup in Germany in front of 80,000 fans. Most of them were cheering for Germany but a small group of about 100 fans were proudly waving their Canadian flags. Michael shared his experiences of running against people from all over the world at the FISU Games in China, and at meets in such places as New York City. They all feel so much pride that they wear the Canadian emblem, but they have never forgotten that their roots are here in Williamstown.

GO CRUSADERS

"One of the best basketball games I have ever played. So much fun and laughter!"

-Mr. Danaher

5

WHAT DO YOU DO BEFORE A BIG GAME?

Good pump up music and a good warm up helps, but more than anything Jim's speeches.
- Victoria Chaddock

Possibly warm up, rehydrate...you know all that fancy before game prep stuff.
- Alisha Peeters

All I can say is we were ready no matter what!
- Tera Bruinsma

Simple! We partied, suga slam style!
- Allison McDougall

We would listen to music as a team and listen to Jim Fournery's amazing speeches.
- Kara Sinnott

Specialist High Skills Major

What is a Specialist High Skills Major?

A Specialist High Skills Major (SHSM) is a type of specialized Ministry of Education approved program. A SHSM allows students to focus their knowledge and skills towards a certain economic sector. Students obtain certification recognized in those sectors, as they work towards meeting the requirements for an Ontario Secondary School Diploma (OSSD). Students who graduate with a SHSM designation on their diploma are prepared for success in a particular sector and in the postsecondary designation of their choice, whether it is apprenticeship training, college programs, university programs, or the workplace.

Every SHSM Includes Five Components

- 1) A package of required credits including:
 - 4 'major' credits for courses that provide knowledge and skills closely related to the sector of specialization;
 - 2 – 4 other required Ontario Curriculum credits particular to the SHSM's economic sector
 - 2 cooperative education credits
- 2) Compulsory certifications in a particular sector which are identified in each SHSM framework.
- 3) Experiential learning that could include job shadowing, job twinning, and work experience.
- 4) Use of the Ontario Skills Passport (OSP) to document the demonstration of essential skills and work habits.
- 5) 'Reach Ahead' opportunities to allow students to experience learning in their intended postsecondary destination, which can range from a day of attendance at a college, a university, or a workplace to completion of a dual credit, and/or Level 1 Apprenticeship in-school training.

How will the Specialist High Skills Major Benefit Students?

- A SHSM allows a student to experience a range of customized, career-focused learning opportunities in a specific sector. It enables a student to take courses in an area of interest related to a particular sector while working towards an OSSD.
- The focused learning experience of a SHSM program gives students the opportunity to explore, identify, and refine career goals and make informed decisions related to postsecondary education goals.
- The experiential learning opportunities provided in a SHSM enable students to refine their skills and improve their work habits, gain confidence in their ability to succeed, and see the connections between their studies, the real world, and their future careers. Students are also able to begin to establish relationships and networks in their chosen fields.
- Students who graduate with a SHSM can look forward to improved prospects after secondary school. The SHSM framework and content is becoming more recognized and supported by the economic sector, apprenticeship and training programs, colleges and universities.
- Students not only graduate with a diploma, they graduate with a resume.

Health & Wellness SHSM at Char-Lan District High School

Char-Lan District High School is excited to offer a new Specialist High Skills Major program in health & wellness. This SHSM will give grade 11 & 12 students a unique opportunity for personal and scholastic growth, as well as extensive sector specific career exploration and preparation.

Whether a student's post-secondary pathway leads to an apprenticeship, college, university, or direct entry into the workplace, SHSM students will graduate with certifications and skills relevant to the fields of health care, sport and recreation, and child and youth services.

Experiential Learning and Reach Ahead Opportunities

A SHSM in the Sport sector will provide Char-Lan DHS students with the required skills to be active and caring volunteers in their communities through specific curriculum courses and volunteer activities. The addition of grade 7 and 8 students in our school will provide a platform for peer tutoring, mentoring, coaching and intramural opportunities for the SHSM students. Organizing and hosting league championships will provide valuable leadership experience. Students will participate in practical learning experiences including cooperative education, job shadowing, and job twinning to complement the skills learned in the Science and Health programs. Students will be given opportunities to explore sector-specific careers and post-secondary programs through organized field trips such as: touring fitness and medical facilities, taking workshops, observing post-secondary classes and interviewing professionals. Students will receive certifications that will include Standard First Aid, Cardiopulmonary Resuscitation (CPR), WHMIS, and automated external defibrillation (AED). Other elective certifications may include suicide prevention and many more.

Principal's Message

It is always a highlight for me say a few words in our annual yearbook. First of all, I want to congratulate the yearbook committee on a wonderful rendition on student life and amazing activities we've had this year. To our graduating students, each of you will be missed and we wish you all of the best in your future endeavors. I look forward to another year with our returning students. Together, we continue to make Char-Lan a place for academic excellence and festive experiences for everyone.

Have a wonderful and safe summer. See you next semester.

John Danaher
Principal

Vice -Principal's Message

The time between beginning the first day of grade nine and finishing the last day of grade twelve can sometimes seem like a life time, especially on that very first day of high school. I hope, as you look through the pages of Crusader 2011-2012, that you remember all the good times you've enjoyed here at Char-Lan over the past few years. In years to come, I hope this book makes you smile as you think back to classes, clubs, sports, dances and just hanging out with friends in the hallways. I would like to congratulate the yearbook committee for all its hard work to showcase the wonderful year it's been here at Char-Lan.

Congratulations to the graduating class of 2012! Best wishes to all of you as you embark on a new series of life's adventures and possibilities. Always remember to, "...have the courage to follow your heart and intuition, they somehow already know what you truly want to become."
